1a	Learning Management System (LMS)	- Security & authentication - Performance & scalability - Visual & functional design - Mobile app - User experience - Accessibility - Integrations & interoperability - LTI2 compliance - Multimedia support - Resources & Activities - GradeBook - Competency & Outcomes frameworks - Reporting & Analytics - Course back up & archiving
	Tenderers to provide a written response	
1b	Any other Information provided about the Learning management System by the Vendor	
	Tenderers to provide a written response	

Item #	Requirement	Key evaluations
2a	Learning Content Management System (LCMS)	- Security & authentication - Performance & scalability - Visual & functional design - Mobile app - User experience - Accessibility - Multimedia support - LMS Integration & interoperability - Workflows automation - Metadata automation - Contribution & search
	Tenderers to provide a written response	
2b	Any other Information provided about the Learning content management System by the Vendor	
	Tenderers to provide a written response	

Item #	Requirement	Key evaluations
3a	ePortfolio system	- Security & authentication - Performance & scalability - LMS Integration & interoperability

		- Visual & functional design
		- Mobile app
		- User experience
		- Accessibility
		- Multimedia support
		- Collaboration
		- Competency & outcomes compatible
		- Portability
	Tenderers to provide a written response	
3b	Any other Information provided about the ePortfolio System by the Vendor	
	Tenderers to provide a written response	

Item #	Requirement (optional)	Key evaluations
4a	Course & Content Authoring - *This is an optional requirement to provide any additional LMS Course & content authoring capability*	- SCORM authoring - Collaborative authoring - LMS & LCMS Integration & interoperability - Security & authentication - Performance & scalability - Visual & functional design - User experience
	Tenderers to provide a written response	
4b	Any other Information provided about the Course & content authoring by the Vendor	

	Tenderers to provide a written response	

Item #	Requirement (optional)	Key evaluations
5a	Advanced reporting & analytics - *This is an optional requirement to provide any additional LMS advanced reporting & analytics capability.*	- Integration & interoperability - Performance & scalability - Security & authentication - Scalability - Visual & functional design - User experience
	Tenderers to provide a written response	
5b	Any other Information provided about the Advanced reporting & analytics by the Vendor	
	Tenderers to provide a written response	

Item #	Requirement	Key evaluations	Vendor response
